

NO HOUSING
NEEDED!

The HALO® LCR Series comes in sizes 2", 4", 6" and 8" wall wash and downlights. This high-powered LED module installs without the use of a recessed housing, reducing time and expense on remodel or new construction. The downlight has a wide distribution pattern ideal for general area illumination and the wall wash illuminates a vertical surface with uniform brightness. The LCR series comes with dual dimming as standard and is designed for residential, mixed-use, and commercial spaces. The LCR has ultimate flexibility with selectable color temperature and lumens. During installation select the perfect color temperature for your space with 6 color temperatures between warm (2700K) to daylight (6500K). Depending on your ceiling height or desired light level choose from several lumen options. The LCR Series features an emergency battery option and designer trims in smooth or baffle.

Product Features

- Direct Mount 2", 4", 6" & 8" downlights
- 6 color Field Selectable CCT:
2700 / 3000 / 3500 / 4000 / 5000 / 6500K CCT; 90+ CRI
- Up to 8000lm (8"), Up to 3000lm (6"), Up to 1200lm (4"), 800lm (2")
- Wet location listed, suitable for shower applications
- Remote driver / junction box, 120-277V, Dual Dim: 0-10V and Phase cut up to 2100 lumen and 0-10V dimming above 2100lm
- Held securely in 0.5" – 1.25" thick ceilings with retention springs
- Airtight and suitable for direct contact with insulation
- Wall wash & Emergency battery pack options available
