## CCT Selectable: 3500K / 4000K / 5000K

3500K   4000K   5000K

Description
Venture Lighting's color temperature selectable LED panels are low profile, lightweight, and designed for long life and low maintenance. These thin luminaires are designed to quickly and easily upgrade existing fluorescent fixtures and be more versatile than other LED panels. The high performance LED source is mounted to ensure proper thermal management of the system. Each fixture is capable of changing CCT with a simple flip of a switch. The CCT Selection method allows for a cost effective method to reduce stocking inventory by 66%.

• Change from 3500K, 4000K or 5000K with just the flip of a switch.
• All CCT Selectable Panel fixtures are preset to 4000K at the factory.

Construction
The high performance LED source is mounted to ensure proper thermal manage-ment of the system. The design allows for a cooler running LED chip which leads to longer lifetime, better efficacy, and color consistency.

Optics
Each fixture utilizes a specially engineered optic which is designed to have low glare yet maximize the product performance.

Electrical
The power supply has a range of 120-277V, 50/60 Hz. Driver input voltage terminal block can use 12 to 22 wire gauge. Driver output voltage terminal block can use 16 to 22 wire gauge. 0-10V DC dimming capability is standard.

Mounting
The fixture is designed for replacing fluorescent fixtures in T-grid applications. Fixtures are IC-rated and rated for damp and dry locations.
